

PSYCHOLOGICAL SAFETY: CREATING THE CULTURE TO THRIVE

Brain Powered Coaching Workshop

The Overview

A unique, practical and highly informative workshop, bringing the power of Psychological Safety to life.

We incorporate the latest research and practical industry examples, to connect neuroscience principles to this key driver of Organisational Performance.

Participants will leave with a clear understanding of what Psychological Safety is, it's impact and why it's critical, both personally for them and for the Organisation. They will also learn key practical steps to create it, whether as a Leader or within their Teams.

"Your presentation and talk were on point and addressed precisely what our challenges are with regards to Psychological Safety"
